FALL 1998 ENROLLMENT SUMMARY

The following report summarizes the status and trends in fall enrollment at the University of Missouri's four campuses. Enrollments are presented in a series of six tables. The first table summarizes the fall total headcount enrollments for each campus and the System since 1994. The second table displays fall 1998 enrollments by campus, student level, and characteristics such as residency, full- and part-time status, and student full-time equivalency. Following the first two summary tables are a series of tables displaying more detailed enrollment and student characteristics for the System and each individual campus. Tables 3.0-3.4 depict on-campus and off-campus headcount and full-time equivalency enrollments as well as student credit hours by student level. On-campus and off-campus enrollments by residency, full- and part-time status, and student level are shown in Tables 4.0-4.4. Table 5.0 shows enrollments by student level, gender, and ethnic characteristics, and Table 6.0 displays UMKC headcount enrollment in its six-year dentistry and medicine programs.

Technical Notes

These tables provide counts of students enrolled in the fall 1998 on-schedule credit courses of the four campuses of the University of Missouri. Fall 1997 counts are included in the Table 3 series (3.0-3.4) for comparison purposes. The data included in these tables were prepared in the admissions and registration offices at the respective campuses. The data are counts as of the census data at each campus which is defined as the end of the fourth week of classes for the fall session. The reports were generally based on the reporting guidelines and definitions of the Coordinating Board for Higher Education (CBHE) and the National Center for Educational Statistics (NCES).

Each of the tables in the Table 3 and Table 4 series include counts of on- and off-campus students. The columns titled "On-Campus", according to the CBHE guidelines, include students enrolled geographically on campus and students in the Graduate Engineering (Residence) Centers. All other students are counted in the columns headed "Off-Campus". The tables of the Table 3 series also include full-time equivalence (FTE) counts. FTE is defined as 15 semester credit hours for undergraduates and 12 semester credit hours for graduates. For professional programs, FTE is defined as 15 semester hours for Law, 18 for UM Columbia Medicine, and 16 for Veterinary Medicine. For Dentistry, UMKC Medicine, Optometry, and Pharmacy, FTE is equal to headcount.

Caveats

First- and second-year students in the Dentistry DDS and Medicine MD programs at UMKC are included in the undergraduate counts of the Table 3 and Table 4 series. For this reason, headcount enrollments for students at all years in these two programs are summarized in Table 6. Enrollment counts for students in "Off-Schedule" courses, which include intersession courses, short courses, Video Credit courses, and other courses which begin and end on dates other than those for the regular academic semester, are accumulated during the term in which the courses began and are reported the semester following their end date.

Tables 1 and 2: Fall Enrollment History and Summary of Fall 1998 Enrollments
